

# Primary 6 students say goodbye to T.Y.C.Y.

Primary 6 students are leaving TYCY to begin secondary school, and this is a very emotional time for everyone. They thank their teachers for the care, guidance, and encouragement they have received every day. They also thank their friends for the fun, laughter, and teamwork that made school feel like a second home. They truly believe TYCY has been an excellent primary school, helping them grow in confidence, knowledge, and character. As they step into a new chapter, they are excited for what's ahead, but they will miss their school, their routines, and every person who helped them along the way.

Words cannot fully express my gratitude. To my beloved parents: thank you for your endless support, encouragement, and sacrifices. You believed in me even when I doubted myself. To my respected teachers: thank you for lighting up my path with knowledge and patience. You have shaped not just my mind, but also my character. To my dear classmates: thank you for the shared laughter, the teamwork, and the wonderful memories. These six years have been unforgettable because of you. Graduation is not a full stop, but a comma in our life's journey. I will carry your love and lessons in my heart. **6A, Yu Chin Wing, Twinnie**

The year has passed in the blink of an eye. After all these years, we have grown up from mischievous and ignorant kids to proud young teenagers. We have learned a lot from our patient and kind teachers. They have helped us grow from tiny saplings to strong young trees. The knowledge they have taught us is more precious than diamonds, because it helps us prepare for the future and leads us to success. For this, I am truly grateful. During these challenging years, our classmates laughed, played and learned with us. They have supported us through difficult times, and I will miss them after we graduate. We will miss our beloved school, always visit it and remember the wonderful memories we have shared here. Let's look forward to a bright future and cherish every moment ahead. **6B, Kong Chi Yu**

Six years have slipped away like a gentle dream. We have blossomed from timid children into confident young graduates. To all our teachers—thank you for your endless patience, warm encouragement, and the wisdom you have planted in our hearts. You inspired us to be curious, to be kind, and to never stop trying. To our dear classmates: thank you for the shared laughter, the honest moments, and the beautiful memories we will treasure forever. We have grown side by side, and you have made this journey unforgettable. To our beloved school: thank you for being our safe harbour. Though we are parting ways, our gratitude will never fade. These six years will forever shine in our hearts. **6C, Cheung Hiu King**

After six years of marvellous adventures with our primary school classmates and teachers, it is the end of this chapter and time to move on. The laughter from different experiences still echoes through everyone's mind. It's quite hard to leave our dear friends and teachers behind for a new, mysterious place. Thanks to our principal and teachers' guidance, we've grown up to be confident and smart individuals. Even though we are about to end this chapter of life, we will still remember them until the end. **6D, Liu Choi Yau**

## TYCY sports teams and athletes are amazing!

Sports teams at T.Y.C.Y. have had great success this academic year. We are proud of our strong tradition of sporting excellence. We value teamwork and leadership among our students, and participating in a school sports team helps build valuable life skills. We would like to introduce some of our school sports teams to you and celebrate their success this school year.

### T.Y.C.Y. Football Team

The school football team worked hard on the field and made great improvements throughout the school year. They trained with determination, supported each other, and stayed focused on every game. Their efforts paid off when they won the final championship, earning many individual awards. We also thank their amazing coaches for their guidance.

### T.Y.C.Y. Badminton Team

TYCY badminton teams have had a fantastic year, showing great teamwork, skill, and determination. Players supported one another in every match and trained with focus throughout the season. Several team members earned individual first prizes for their standout performances, including tournament champions, and sportsmanship. Congratulations to all involved!

### T.Y.C.Y. Basketball Team

Under the guidance of their new coaching staff, the TYCY basketball team enjoyed a great year. The players dedicated themselves to additional weekly training sessions, rapidly elevating their skills and cultivating a powerful sense of unity. This relentless drive ultimately paid off in the final tournament of the season, where the girls triumphantly captured the championship title! What an amazing year

### T.Y.C.Y. Table Tennis Team

The amazing TYCY table tennis team had a wonderful year.. They showed lots of talent, and the team developed strong bonding through training and matches. Working together helped them improve quickly and become a very strong team. The boys and girls won the championship for the year. There were also individual championships won by the boys and girls. A very successful season teams. Congratulations, Team!

### T.Y.C.Y. Volleyball Team

The TYCY volleyball squad experienced incredible growth this season, powered by talented new players. Through focused practices, teammates forged unbreakable bonds. This collective effort unlocked their full potential, creating a fiercely competitive line-up that delivered outstanding tournament performances all year. Both teams placed well in the year-end tournament. Phenomenal job, team!

# A few words from our top T.Y.C.Y. athletes

Hi everyone! I am Chloe Chan from Class 6A. I love doing sports very much. However, I like playing volleyball the most. I started to play volleyball in P.5. Although I have only learnt to play volleyball for two years, I have already fallen in love with this sport because it always brings me happiness. The volleyball team training is tiring, but it's also very fun. This sport lets me learn a lot about team spirit. We face plenty of challenges. I believe our team will grow a lot due to the training by our coaches. In the future, I wish I can be a volleyball athlete. I want to participate in different international competitions. I also need to thank my coaches, Miss Wong and Miss Poon. They teach me different skills. Thanks to my family and friends for supporting me in my first volleyball competition. Come on guys, let's play volleyball together.

Hello. My name is Lo Chi Hin. My favourite sport is badminton. You might ask why I love this sport. It is because this sport makes me happy and it is fun to play. I started playing badminton in 2021. When I was six, I could only hold the badminton racket. I was frustrated, but I remembered that persistence is more important than being the best. So, I persisted in training at badminton every Sunday. Finally, in 2024, I was excited to join the school team. My training was never wasted. I thought it was difficult when even the coach needed a lot of shots to be done, but I did not give up. At last, I did it! I felt happy at that moment. In the future, I hope I can be an athlete, and my goal is to get a gold medal. Then, my parents will be very proud of me. In the end, I would like to thank my best friend because he always teaches me a lot of badminton skills so that I can improve.

My name is Cheung Le Tao. My favourite sport is table tennis. I started playing at six years old. I joined the team in Primary 2. I fell in love with this sport because it is an exciting and challenging sport. It requires not only technical skills, but also the ability to stay calm and clear-minded at all times. It also involves using strategies to defeat opponents while adapting to different styles. During my training, I experienced many ups and downs. In the beginning, it was difficult for me to control the spin, and I often took the wrong steps. This made me feel exhausted, and sometimes I wanted to give up. However, winning a competition or mastering a new skill gave me a huge sense of achievement and motivated me to continue practising every day. From my training, I learned that when I fall behind, I should not act on impulse. Instead, I should stay calm. Finally, I would like to thank my coach for his patience.

My name is Kyle Yu and I'm in Class 6A. My favourite sport is football. I started playing football when I was four years old because my dad took me to a match, and I loved it immediately. I joined the school team in Primary 3, in 2023. I fell in love with football because it is fast, exciting and full of teamwork. My training was not easy—I often fell down and felt tired, but scoring my first goal made me very happy. From training and matches, I learned that hard work and never giving up are very important. In the future, I wish to play for the Hong Kong Youth Team one day. I want to thank my PE teacher and my parents for always supporting me.

# 2026 FOOTBALL WORLD CUP TEACHER ACTIVITY

The 2026 Football World Cup is being held in Canada, the USA, and Mexico. Teams and fans from all over the world will come together to compete in what is widely regarded as the biggest sporting event on Earth. For the first time, the tournament has expanded beyond the traditional 32-team format. The 48 qualified nations will be divided into 12 groups of four. We know it will be an amazing spectacle, and we hope you all get to enjoy the event. Can you guess which teams your teachers are cheering for?

## 1 Mr Wong

This country has amazing football players and teams. They have Porto and Cristiano Ronaldo. They always do very well with their exciting style of football but they have never won the World Cup. They play an exciting style of football. They are also famous for their culture. Can you guess which country I'm cheering for?

## 2 Mr Chan

I am a country in Europe with a red and yellow flag. My team has won the World Cup once and produced famous players like Xavi, Iniesta, and David Villa. The fans love football culture. They love tapas restaurants and going to the beach. They have 2 famous teams called Real Madrid and Barcelona. What team am I?

## 3 Mr Lo

This country has won the World Cup 5 times!. Their most famous player is Pele. This country is in South America and has a famous festival call the "Carnival". This country plays exciting football and is loved all over the world for their football culture. They also have a rainforest called the Amazon. What country am I?

## 4 Mr Chan

The country I'm cheering for hasn't won the World Cup but they did host it in 2002. This country has a strong connection to Hong Kong. They are famous for K-Pop, T.V. dramas and movies. They are also famous for their food, like Kimchi, Bibimbap and BBQ. It's only a 4-hour flight from Hong Kong and many people travel there. Do you know the country?

## 5 Miss Ho

This country has won the World Cup 4 times. They play a technical style of football and they are very efficient. Some of their famous teams are Bayern Munich and Stuttgart. The people in this country like to eat sausages and sauerkraut when they watch football. They always have a chance to win because of their quality and ability. Can you guess the country?

**a** Brazil

**b** Korea

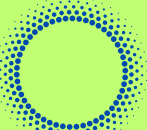

**c** Portugal

**d** Spain

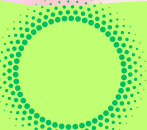

**e** Germany
